THE CONCEPT

NOT FAST FOOD. AN EVENT.

Charrged is a premium pop-up burger operation that rotates around Belfast's best private venues. Thick Finnebrogue Wagyu blend patties, brioche buns, signature sauce. Cooked fresh to order. Eaten right there. Every session is a limited drop — and when they're gone, they're gone.

Zero Emission Power

The Sterling Hardy H3500P lithium battery system powers everything. Silent. Clean. Zero emissions. The same system used in pharmaceutical cold-chain transport for 15 years. No diesel generator. No fumes. Just power.

Finnebrogue Wagyu

One thick patty. Premium Wagyu blend from Finnebrogue Artisan, Downpatrick — Northern Ireland's finest. Already trusted by major supermarkets. The quality story sells itself.

📍

Rotating Locations

Shopping centres, cinema car parks, university grounds, business parks. Always private land, always different. The mystery of where next keeps customers following, sharing, returning.

♻️

Genuinely Zero Waste

Reusable branded trays. Sides scooped directly at service. A lever-operated can crusher mounted on the cart. Nothing goes in a bin. Everything is returned. Sustainability built in — not bolted on.

THE PRE-ORDER SYSTEM

ORDER BEFORE YOU ARRIVE.

No queuing. No wasted food. No chaos. The Charrged app lets customers pre-order their slot up to 24 hours in advance. When a session sells out — it closes. That's the model.

01

Drop Announced

Session goes live on the app — location, time, capacity. Followers get notified. Slots start filling immediately.

24HRS AHEAD

02

Pre-Order Opens

Customers pick their 15-minute collection slot, choose their 2 sides, add drinks or crisps, pay upfront.

BEFORE 10AM / 5PM

03

Fresh Batch Cooked

10 burgers per batch. 15-minute cycles. Two Ninja grills alternating. Every burger leaves the grill within minutes of being collected.

10 PER SLOT

04

Collect & Eat

Show up at your slot. Collect your tray. Eat it immediately. Return the tray. Crush the can. Done. No waste, no delay, no disappointment.

ON THE DOT

THE EXPERIENCE

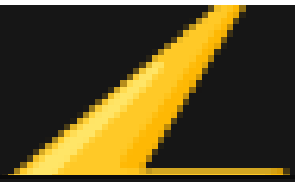
MADE FRESH.
EATEN FRESH.

The Wagyu Thick Single.
On a Brioche Bun.

Not a smash burger. Not a double. One thick, juicy Finnebrogue Wagyu blend patty — cooked on a Ninja grill at high heat, rested, served cut in half with a signature dipping sauce pot. The quality of Wagyu demands a single generous patty. This is the product the market is missing.

FINNEBROGUE WAGYU | BRIOCHE BUN | SIGNATURE SAUCE

£12 ONLY



🥣

Choose 2 Sides

Coleslaw, Gourmet Beans, or Pickles. Pre-made in a commercial kitchen. Scooped directly into your tray compartment. No extra packaging.

⚡

Crush The Can

A lever-operated can crusher on the side of the cart. Pull the lever. Hear the crunch. Every single time. Zero landfill. Pure satisfaction.

THE MENU

SIMPLE.

THE BIGGER PICTURE

BELFAST FIRST. WORLD NEXT.

Every decision in Charrged has been made with franchising in mind. Low barrier to entry. Simple repeatable process. Powerful brand. The Belfast operation is the proof of concept — then we replicate it everywhere.

£7k

Startup Cost

Full Charrged operation — power system, grills, fridge, trays, can crusher, handwashing station, initial stock, insurance. The lowest barrier in food franchising.

69%

Gross Margin

£3.70 cost per burger. £12 selling price. Consistent, scalable, provable. Every franchisee operates to the same cost structure and the same quality standard.

6+

Target Cities

Belfast → Derry → Dublin → Cork → Glasgow → Manchester. The private venue model means no complex local licensing. Find a car park. Start selling.

CHARGED UP.
READY TO GO.

The concept is built. The product is proven. The market is ready. Belfast launches in 2026 — and everything after that is just replication.

BATTERY POWERED | LOCALLY SOURCED | ZERO WASTE | PRE-ORDER ONLY | ⚡ FRANCHISE READY

CHARRGED

CHARRED BY FLAME. CHARGED BY BATTERY. BELFAST 2026.
